Part I
Management's Discussion & Analysis of
Financial Position and Results of Operations

Financial Performance Highlights

The Bank's net income as of June 30, 2016 stood at ₱1.56 billion, higher by 55% from the same period last year. Core recurring income base (i.e. net revenues less trading income and other one-off items) continue to post a robust 29% growth as the Bank continue to see the results of its expansion program. Net Interest Margin (NIM) remains at an industry best of 7.8% as the Bank remains one of the most consumer focused bank in the industry. NIM after provisions for loan losses stood at 4.9% as of June 30, 2016 which is still higher than industry average NIM of around 3.0%. We define industry here as universal and commercial banks.

Total Assets stood at ₱257.4 billion as of June 30, 2016. This is 26% and 11% higher than June 30, 2015 and December 31, 2015, respectively. The growth was driven by the 36% growth in customer loans. Consumer loans, which accounts for 63% of total loans, grew by 50% y/y and 24% from year-end 2015. Business loans, on the other hand, grew by 17% y/y but declined by 1% from December 2015.

Net Revenues increased by 31% to ₱10.4 billion from ₱7.9 billion in the same period last year as core recurring revenues grew by 29% to ₱9.5 billion from ₱7.4 billion year on year. The revenue expansion was all across the different business units – consumer, business loans, and deposits, as the Bank starts to enjoy the fruits of the expansion program it undertook starting in 2012.

Securities trading gains grew by 85% y/y to ₱790.9 million, while FX gains increased by 15% to ₱127.3 million.

Expenses on the other hand also increased by 21% to ₱5.7 billion. The increase in expenses was driven by manpower and infrastructure related expenses associated with the expansion in branch store network.

The increase in provisions for credit losses was driven mainly by consumer loans as the bank continues to grow the business segment. The Bank views that the country's economy still has some years to continue on its expansion path. While provisions continue to increase, at the margin, the Bank continues to generate positive returns. It is important to note that this is able to provide for future recurring revenue stream.

Overall, we note that core recurring revenues continue to increase at a faster rate than operating expenses. While competition is showing no sign of decline, we believe that the Bank is making progress in improving its productivity and now has a good base in terms of infrastructure to continue improving its competitive position.

Financial Position

Loans

The Bank remains focused in growing its consumer and mid-market corporate loans, with consumer loans still taking up more than half of total customer loans at 63%. The Bank continue to sustain its momentum on consumer loans business.

Deposits

Deposits stood at ₱206.3 billion as of June 30, 2016, up by 30% from the same period last year. The growth is largely attributable to the expanded store network as reflected in the growth of low cost deposits (CASA) which ended at ₱109.3 billion for an increase of 24% from the previous year. High cost deposits (inclusive of LTNCDs) on the other hand increased by 38% to end at ₱97.0 billion. On average, the Bank still has lower average deposit level per store compared to industry peers at ₱470.9 million vs. circa ₱1.2 billion, respectively. This is mainly because most of the Bank's branch stores are new with 111 of the 380 stores in the unibank are less than 3 years old.

Capital

The Bank's Capital Adequacy Ratio (CAR) under Basel 3, remain more than adequate at 14.2% as of June 30, 2016 while Tier-1 ratio stood at 11.1%. The Bank's Tier 1 capital is composed entirely of common equity.

Credit Quality

Overall NPL ratios improved at the Bank's NPL to Total Customer Loans, net of fully provided NPLs, declined to 3.6%[1] in June 30, 2016 from 3.7%[1] as of June 30, 2015.

[1] Total NPLs less: 100% covered NPLs divided by Total Customer Loans less: 100% covered NPLs (at Group level)

Result of Operations

Revenues

Net Revenues grew by 31% to ₱10.4 billion from ₱7.9 billion in the same period last year. Trading Income was at ₱918.2 million or 71% higher than the ₱537.9 million gains booked last year. Other operating income, exclusive of trading gains, increased by 39% to ₱2.1 billion.

Net Interest Income stood at ₱7.3 billion, 26% or ₱1.5 billion higher than the ₱5.8 billion posted last year driven by the growth in earning assets.

Fee Income

Fees excluding Trading Gains, grew by 39% at ₱2.1 billion driven by branch store transaction and consumer loan-related fees.

Trading Income

Securities Trading and Foreign Exchange Gains reached ₱918.2 million as compared to the ₱537.9 million gains posted in same period last year.

Operating Costs

Total Operating Expenses, excluding Provision for loan losses, increased by 21% to ₱5.7 billion during the period. Compensation related expenses increased by 25% to ₱2.0 billion, while Provision for loan losses grew by 33% to ₱2.7 billion on account of aggressive loan portfolio growth particularly in consumer loans. The increase in operating expenses reflected the growth of the different businesses. Productivity is improving as operating expenses grew at a slower pace than core revenues. This appears to reflect the maturation process of the expansion program started in 2012.

Other Expenses related to business expansion has increased as follows: (i) Taxes and Licenses grew by 51% to ₱775.2 million as a result of growth in revenue base; (ii) Depreciation and Amortization grew by 25% to ₱552.0 million coming from expansion in business and infrastructure; (iii) Rent grew by 18% to ₱409.5 million coming from branch store expansion; and (iv) Miscellaneous Expenses grew by 9% to ₱2.0 billion with the growth largely coming from higher Consumer loans and branch store expansion.

Results of Operations - For the Second Quarter ended June 30, 2016 and 2015

Revenues

Net Revenues grew by 40% in 2Q2016 to ₱5.3 billion from ₱3.8 billion in the same quarter last year. Trading Income was at ₱468.5 million or 94% higher than the ₱241.2 million gains booked in the same quarter last year. Other operating income, exclusive of trading gains, increased by 155% to ₱1.1 billion. There was an accounting adjustments in 2Q15 totaling ₱352.0 million. Taking out one-off adjustments, on a like for like basis, Net Revenues and Other Operating Income for the 2nd quarter of 2016 grew by 28% and 40%, respectively, driven by branch store transaction and consumer loan-related fees.

Net Interest Income

Net Interest Income stood at ₱3.7 billion in 2Q2016, 20% or ₱631.3 million higher than the ₱3.1 billion posted in the same quarter last year. The higher Net Interest Income was a result of the double-digit growth in lending. Interest Income and Interest Expense in 2Q2016 increased by 22% and 33%, respectively.

Fee Income

Fees excluding Trading Gains, largely coming from transactional and service fees of consumer lending and the branch stores grew by 155% at ₱1.1 billion. There was an accounting adjustments in 2Q15 totaling ₱352.0 million, hence on a like for like basis, fee income for the 2nd quarter of 2016 grew by 40% driven by branch store transaction and consumer loan-related fees.

Trading Income

Securities Trading and Foreign Exchange Gains was at ₱468.5 million as compared to the ₱241.2 million gains posted in same quarter last year.

Operating Costs

Total Operating Expenses, excluding Provision for loan losses, increased by 25% to ₱2.9 billion during the quarter. Compensation related expenses increased by 41% to ₱970.3 million, mostly on higher provisions for bonuses, while Provision for loan losses grew by 30% to ₱1.4 billion on account of loan growth particularly in consumer loans. The increase in operating expenses reflected the growth of the different businesses. Productivity continue to improve as operating expenses grew at a slower pace than core revenues. This appears to reflect the maturation process of the expansion program started in 2012.

Other Expenses related to business expansion has increased as follows: (i) Taxes and Licenses grew by 35% to ₱375.2 million as a result of growth in revenue base; (ii) Depreciation and Amortization grew by 18% to ₱276.9 million coming from expansion in business and infrastructure; (iii) Rent grew by 13% to ₱199.5 million coming from branch store expansion; and (iv) Miscellaneous Expenses grew by 14% to ₱1.0 billion with the growth largely coming from higher Consumer loans and branch store expansion.

Summary of Key Financials and Ratios

Balance Sheet (in ₱ billions)	**June 30, 2016**	**June 30, 2015**	**y/y Growth %**
Assets	257.4	204.9	26%
Consumer Loans	111.9	74.7	50%
Corporate Loans	65.7	56.3	17%
Total Deposits	206.3	158.1	30%
Capital	32.5	30.3	7%

Profitability (in ₱ millions)	**June 30, 2016**	**June 30, 2015**	**y/y Growth %**
Net Interest Income	7,348	5,842	26%
Other Income	3,060	2,080	47%
Operating Expenses (Ex- Provision for Losses)	5,714	4,720	21%
Provision for Losses	2,740	2,056	33%
Net Income After Tax	1,563	1,008	55%

Key Financial Ratios	June 30, 2016	June 30, 2015	Variance b/(w)
Return on Equity	9.8%	8.0%	1.8%
Return on Assets	1.3%	1.0%	0.3%
Net Interest Margin	7.8%	8.1%	(0.3%)
Cost-to-Income Ratio	54.9%	59.6%	4.7%
Capital Adequacy Ratio	14.2%	18.3%	(4.1)%

Business Segment Performance

The Bank's core recurring income base continues to post double-digit growth, coming from the efforts of Consumer Lending, Retail Banking and Corporate Banking business segments. Net Interest Margin (NIM) continue to pace the industry at 7.8% as of 1H2016. Fees excluding Trading Gains, likewise, recorded a strong growth of 39% y/y. This recurring income is largely attributable to the growing customer base and market share of the Bank.

Consumer Loans grew by 50% y/y, driven mainly by auto, mortgage and personal loans. Credit cards, which remains to be the highest contributor for consumer lending's bottom-line, was flat to end at ₱21.9 billion.

Corporate Banking posted a y/y growth of 17%. The increase in corporate loan releases somehow mitigated the effects of thinner spreads in this business segment.

Treasury group's contribution to the Bank's bottom line in the first half of 2016 was higher than last year. The Bank was able to take advantage of market opportunities and posted ₱918.2 million in trading revenues.

On the cost side, the headcount heavy Consumer lending and Retail banking businesses continue to lead all business segments in terms of operating expenses. This was largely due to the expanded branch stores and the credit costs booked for Consumer loans.

In summary, Consumer Lending business contributed the most to the Bank's bottom line, which is attributable to the stable revenue base coming from auto loans as well as the stronger growth in mortgage loans and personal loans. This was followed by Treasury's contribution coming from trading revenues. Corporate banking, likewise, managed to contribute despite thinning spreads, as a result of its expanded loan portfolio. Retail Banking continues to carry the burden of the expenses brought by the branch store expansion program in the last 3 years.

Other Information:

As of June 30, 2016, EastWest Bank has a total of 380 branches, with 166 of these branch stores in the restricted areas and a total of 207 of these branch stores in all of Metro Manila. For the rest of the country, the Bank has 98 branches in other parts of Luzon, 39 branches in Visayas, and 36 branches in Mindanao. The total ATM network is at 584, composed of 376 on-site ATMs and 208 off-site ATMs. Total headcount of the unibank is 5,335.

The subsidiaries have a total of 58 branches and 1,054 officers/staff, bringing the group branch store network total to 438 with 584 ATMs and combined manpower of 6,389.

Known trends, demands, commitments, events or uncertainties

There are no known demands, commitments, events or uncertainties that will have a material impact on the Bank's liquidity within the next twelve (12) months.

Events that will trigger direct or contingent financial obligation

There are no events that will trigger direct or contingent financial obligation that is material to the Bank, including any default or acceleration of an obligation.

Material off-balance sheet transactions, arrangements or obligations

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Bank with unsolicited entities or other persons created during the reporting period other than those disclosed in the financial statements.

Capital Expenditures

The Bank has commitments for capital expenditures mainly for bank's branch expansion and implementation of IT projects.

Significant Elements of Income or Loss

Significant elements of the consolidated Net Income of the Group for the period ended June 30, 2016 and 2015 came from its continuing operations.

Seasonal Aspects

There are no seasonal aspects that had a material effect on the Bank's financial condition and results of operations.

Vertical and Horizontal Analysis of Material Changes for the Period

The term "material" in this section shall refer to changes or items amounting to five percent (5%) of the relevant accounts or such lower amount, which the Bank deems material on the basis of other factors.

I. Statements of Financial Position – June 30, 2016 vs. December 31, 2015

- Cash and cash equivalents decreased by 17% to ₱4.9 billion due to the leveling-off of cash in vault from the usual year-end build-up.
- Due from BSP increased by 10% to ₱34.1 billion on higher deposit base and liquid funds placed with BSP.
- Due from other banks decreased by 56% to ₱2.4 billion due to decreased levels of placements and balances with counterparty banks.
- Interbank loans receivable and Securities Purchased Under Resale Agreements (SPURA) decreased by 30% as more funds were placed in higher yielding liquid assets.
- Financial Assets at Fair Value through Profit and Loss increased by 9% to ₱11.5 billion due to movements in the Bank's proprietary trading portfolio.
- Financial Assets at Fair Value through Other Comprehensive Income decreased by 10% to ₱5.6 million due to the decline in market values of its equity securities investments.

- Investment Securities at Amortized Cost increased by 126% to ₱10.4 billion in line with the Bank's balance sheet business model.
- Loans and Receivables increased by 13% to ₱175.6 billion driven mainly from increase in customer loans on both consumer and mid-market segments.
- Investment in a Joint Venture account declined by 13% to ₱409.1 million. The decrease represent the proportionate share of the Bank in the net loss of the Joint Venture with Ageas.
- Deferred tax asset increased by 27% to ₱1.7 billion on account of higher provisioning set-up, net of write-off, during the period.
- Other assets increased by 17% on account of the following: (i) Prepaid assets increased by 185% to ₱445.9 million, and (ii) Documentary stamp increased by ₱95.0 million.
- Deposit liabilities increased by 12% to ₱206.3 billion, largely coming from CASA growth which is attributable to the expanded branch store network.
- Bills and acceptance payable increased by 31% to ₱4.0 billion from higher volume of interbank and other borrowings.
- Accrued Taxes, Interest and Other Expenses increased by 16% due to higher level of transactions on account of expanded stores.
- Cashier's Checks and Demand Draft Payable decreased by 23% to ₱941.9 million due to seasonally high transaction volume during year-end.
- Income tax payable decreased by 10% due to lower tax-exempt income in the Parent Books.
- Unsecured subordinated debt (UnSD) decreased by 23% as the Bank retired ₱1.5 billion non-BASEL III compliant Tier 2 notes in January 2016.
- Other liabilities jumped by 42% due to the following (i) Mortgage registration payable increased by 28% or ₱399.7 million, (ii) Loan fees increased by 36% to ₱ 280.0 million (iii) Withholding tax payable increased by 35% to ₱149.6 million and (iv) Accrued retirement payable increased by 24% to ₱60.5 million.

II. Statement of Income – June 30, 2016 vs. June 30, 2015

- Interest income increased by 25% to ₱8.7 billion from ₱6.9 billion in the same period last year primarily due to an increase in lending activities, largely driven by growth in auto loans, personal loans and corporate loan.
- Interest expense increased by 22% to ₱1.1 billion primarily due to strong growth in deposits and other borrowings.
- Service charges, fees and commissions grew by 40% to ₱1.9 billion from ₱1.4 billion in the same period last year driven by branch store transaction and consumer loan-related fees.
- Trading and securities gain and Foreign exchange gains increased by 85% and 15%, respectively, as the Bank took advantage of the favorable market conditions during the 1st half of the year.
- Gain on sale of assets and asset foreclosure increased by 12% in the first half of 2016 as the Bank disposed portion of its repossessed assets at higher premiums compared to last year.
- Trust income dropped by 12% to ₱7.9 million due to the decline in assets under management account.
- Miscellaneous income also increased by 33% to ₱204.7 million as the Bank had higher recovery of assets written-off compared to the same period last year.

- Manpower costs continue to rise from ₱1.6 billion last year to ₱2.0 billion this year on account of expanded business and stores.
- The Bank continued its conservative provisioning on account of its credit expansion, by setting aside ₱2.7 billion in provision for probable losses, an increase of 33% from what was booked last year.
- Taxes and licenses, Depreciation and amortization, Rent expense and miscellaneous expenses increased by 51%, 25%, 18% and 9%, respectively, on account of the expanded branch store network and operations.

EAST WEST BANKING CORPORATION AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

East West Banking Corporation (the Bank or EW) was granted authority by the Bangko Sentral ng Pilipinas (BSP) to operate as a commercial bank on July 6, 1994, and commenced operations on July 8, 1994. The Bank was also granted authority by the BSP to operate an expanded foreign currency deposit unit on August 31, 1994 and has been granted the universal bank license on July 31, 2012. As of March 31, 2016, EW is effectively 77.18% owned by Filinvest Development Corporation (FDC). The Bank's ultimate parent company is A.L. Gotianun, Inc. EW's head office is located at East West Corporate Center, The Beaufort, 5th Avenue corner 23rd Street, Fort Bonifacio Global City, Taguig City.

EW is a domestic corporation registered with the Securities and Exchange Commission (SEC) on March 22, 1994. EW's common shares were listed and commenced trading in the Philippine Stock Exchange (PSE) on May 7, 2012.

Through its network of 379 branches as of June 30, 2016, 2016, EW provides a wide range of financial services to consumer and corporate clients. EW's principal banking products and services include deposit-taking, loan and trade finance, treasury, trust services, credit cards, cash management and custodial services.

Investments in Subsidiaries and Joint Venture

As of June 30, 2016, EW owns 100% of voting shares of East West Rural Bank and East West Insurance Brokerage, Inc. and 50% of voting shares of East West Ageas Life Insurance Corporation.

2. Summary of Significant Accounting Policies

<u>Basis of Presentation</u>

The accompanying financial statements have been prepared on a historical cost basis except for financial assets at fair value through profit or loss (FVTPL), financial assets at fair value through other comprehensive income (FVTOCI) and derivative financial instruments that have been measured at fair value. The financial statements are presented in Philippine peso and all values are rounded to the nearest thousand except when otherwise indicated.

The financial statements of the Bank include the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The functional currency of the RBU and the FCDU is the Philippine peso and United States dollar (USD), respectively. For financial reporting purposes, FCDU accounts and foreign currency-denominated accounts in the RBU are translated into their equivalents in Philippine peso, which is the Parent Company's presentation currency (see accounting policy on Foreign Currency Transactions and Translation). The financial statements individually prepared for these units are combined after eliminating inter-unit accounts.

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The functional currency of both subsidiaries is the Philippine peso.

Statement of Compliance
The accompanying financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Presentation of Financial Statements
The Group presents its statement of financial position broadly in order of liquidity.

Basis of Consolidation
The Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Bank obtains control and continue to be consolidated until the date when control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Bank using consistent accounting policies.

All significant intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in the consolidation.

Subsidiaries are fully consolidated from the date on which control is transferred to the Bank. Control is achieved where the Bank is exposed, or has rights, to variable return from its involvement with an entity and has the ability to affect those returns through its power over the entity. The Bank has power over the entity when it has existing rights that give it the current ability to direct relevant activities (i.e., activities that significantly affect the entity's returns). Consolidation of subsidiaries ceases when control is transferred out of the Bank. The results of subsidiaries acquired or disposed of during the period are included in the consolidated statement of income from the date of acquisition or up to the date of disposal, as appropriate.

Non-Controlling Interest
Non-controlling interest represents the portion of profit or loss and net assets not owned, directly or indirectly, by the Bank.

Non-controlling interests are presented separately in the consolidated statement of income, consolidated statement of comprehensive income, and within equity in the consolidated statement of financial position, separately from equity attributable to the equity holders of the Bank. Any losses applicable to the non-controlling interests are allocated against the interests of the non-controlling interest even if this results in the non-controlling interest having a deficit balance. Acquisitions of non-controlling interests that does not result in a loss of control are accounted for as equity transaction, whereby the difference between the consideration and the fair value of the share of net assets acquired is recognized as an equity transaction and attributed to the owners of the Bank.

Changes in Accounting Policies and Disclosures
The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following new and amended standards and interpretations, which became effective beginning January 1, 2016 Unless otherwise indicated, adoption of these new and amended standards and interpretations did not have material impact to the Group.

Effective January 1, 2016

PFRS 10, *Consolidated Financial Statements, and PAS 28, Investments in Associates and Joint Ventures - Investment Entities: Applying the Consolidation Exception* (Amendments)
These amendments clarify that the exemption in PFRS 10 from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity that measures all of its subsidiaries at fair value and that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. The amendments also allow the investor (that is not an investment entity and has an investment entity associate or joint venture), when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

PAS 27, Separate Financial Statements - Equity Method in Separate Financial Statements (Amendments)
The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying PFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively.

PFRS 11, *Joint Arrangements - Accounting for Acquisitions of Interests* (Amendments)
The amendments require a joint operator that is accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business (as defined by PFRS 3), to apply the relevant PFRS 3 principles for business combination accounting. The amendments also clarify that a previously held interest in a joint operations is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to PFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

PAS 1, *Presentation of Financial Statements - Disclosure* (Amendments)
The amendments are intended to assist entities in applying judgment when meeting the presentation and disclosure requirements in PFRS. They clarify the following:
- That entities shall not reduce the understandability of their financial statements by either obscuring material information with immaterial information; or aggregating material items that have different natures or functions
- That specific line items in the statement of income and OCI and the statement of financial position may be disaggregated
- That entities have flexibility as to the order in which they present the notes to financial statements
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss

PFRS 14, *Regulatory Deferral Accounts*
PFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of PFRS. Entities that adopt PFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and other comprehensive income. The standard requires disclosures on the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements.

PAS 16, *Property, Plant and Equipment*, and PAS 41, *Agriculture*: Bearer Plants
The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of PAS 41. Instead, PAS 16 will apply. After initial recognition, bearer plants will be measured under PAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of PAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, PAS 20, *Accounting for Government Grants and Disclosure of Government Assistance* will apply.

PAS 16, *Property, Plant and Equipment* and PAS 38, *Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortization* (Amendments)
The amendments clarify the principle in PAS 16 and PAS 38 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortize intangible assets.

Annual Improvements to PFRSs (2012 - 2014 cycle)
The Annual Improvements to PFRSs (2012 - 2014 cycle) are effective for annual periods beginning on or after January 1, 2016 and are not expected to have a material impact on the Group. They include:

PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations - Changes in Methods of Disposal*
The amendment is applied prospectively and clarifies that changing from a disposal through sale to a disposal through distribution to owners and vice-versa should not be considered to be a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in PFRS 5. The amendment also clarifies that changing the disposal method does not change the date of classification.

PFRS 7, *Financial Instruments: Disclosures - Servicing Contracts*
PFRS 7 requires an entity to provide disclosures for any continuing involvement in a transferred asset that is derecognized in its entirety. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and arrangement against the guidance in PFRS 7 in order to assess whether the disclosures are required. The amendment is to be applied such that the assessment of which servicing contracts constitute continuing involvement will need to be done retrospectively. However, comparative disclosures are not required to be provided for any period beginning before the annual period in which the entity first applies the amendments.

PFRS 7 - Applicability of the Amendments to PFRS 7 to Condensed Interim Financial Statements
This amendment is applied retrospectively and clarifies that the disclosures on offsetting of financial assets and financial liabilities are not required in the condensed interim financial report unless they provide a significant update to the information reported in the most recent annual report.

PAS 19, *Employee Benefits - Regional Market Issue regarding Discount Rate*
This amendment is applied prospectively and clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used.

PAS 34, *Interim Financial Reporting - Disclosure of Information 'Elsewhere in the Interim Financial Report'*
The amendment is applied retrospectively and clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g., in the management commentary or risk report).

Effective January 1, 2018

PFRS 9, *Financial Instruments*
In July 2014, the IASB issued the final version of PFRS 9, *Financial Instruments* which reflects all phases of the financial instruments project and replaces PAS 39, *Financial Instruments: Recognition*

and Measurement and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. PFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions. Early application of previous versions of PFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before February 1, 2015.

The adoption of the final version of PFRS 9 will have an effect on the impairment methodology for financial assets. The adoption will also have an effect on the Group's application of hedge accounting. The Group is currently assessing the impact of adopting this standard.

IFRS 15, *Revenue from Contracts with Customers*
IFRS 15 was issued by IASB in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15 revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under IFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018 with early adoption permitted. The Group is currently assessing the impact of IFRS 15 and plans to adopt the new standard on the required effective date once adopted locally.

IFRS 16, *Leases*
On January 13, 2016, the IASB issued its new standard, IFRS 16, Leases, which replaces International Accounting Standards (IAS) 17, the current leases standard, and the related Interpretations.

Under the new standard, lessees will no longer classify their leases as either operating or finance leases in accordance with IAS 17. Rather, lessees will apply the single-asset model. Under this model, lessees will recognize the assets and related liabilities for most lease on their balance sheets, and subsequently, will depreciate the lease assets and recognize interest on the lease liabilities in their profit or loss. Leases with a term of 12 months or less or for which the underlying asset is of low value are exempted from these requirements.

The accounting by lessors is substantially unchanged as the new standard carries forward the principles of lessor accounting under IAS 17. Lessors, however, will be required to disclose more information in their financial statements, particularly on the risk exposure to residual value.

The new standard is effective for annual period beginning on or after January 1, 2019. Entities may early adopt IFRS 16 but only if they have also adopted, IFRS 15, Revenue from Contracts with Customers. When adopting IFRS 16, an entity is permitted to use whether a full retrospective of a modified retrospective approach, with options to use certain transition reliefs. The Group is currently assessing the impact of PFRS 16 and plans to adopt the new standard on the required effected date once adopted locally.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in compliance with PFRS requires the Group to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as these become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

4. **Financial Risk Management**

The risk exposure of the Bank and its subsidiary (the Group) in credit, market, interest rate, and liquidity remains contained within its risk limits and adequately covered by its available capital.

Specifically, notable risk exposures, where most emanate from the Bank, as of the end of first half of 2016 in the following areas are summarized below.

- Credit risk: Potential risk is well within regulatory capital as gleaned from the following indicators.

    - Credit quality of portfolio remains at a composite rating of 'Satisfactory' for its corporate portfolio, 'Standard' grade for its consumer portfolio, and its non – tradable investment portfolio at 'BBB' composite rating.
    - Total loan portfolio is secured at around 45%, while the portfolio of products that normally require collateral remains healthy at over 55% secured.
    - No credit concentration in size, borrower, and industry as defined by BSP and internal risk policies.

- Market risk: Around 1% of the Bank's Qualifying Capital, or 2% of the market value of the trading position is the value-at-risk on the Parent Company's trading book for potential adverse movements in interest rates and foreign exchange rates.

- Interest rate risk: At the consolidated basis of the banking book, maximum potential loss impact (for the rest of 2016) from adverse movement in interest rate is estimated to be around 4% and 18% of the budgeted net interest income and net income for 2016, respectively.

- Liquidity risk: There is no imminent liquidity risk as the Group remains to be generally liquid with sufficient sources of funding as and when the need arises. Regulatory and internal risk limits are duly complied with.

Capital level, on the other hand, stands around P30 billion. Despite the tighter regulatory capital standards, this remains enough to comply with the regulatory minimum, in accordance with the supervisor's prescriptions, as well as cover for the above approximated risk exposures.

Thus, the Group's risk management policies remain generally the same as in 2015. The Group's 2015 audited financial statements discuss in detail its risk exposures and its related policies.

5. **Fair Value Measurement**

The Group measures certain financial instruments such as financial assets at FVTPL, financial assets at FVTOCI and derivative financial instruments, at fair value at each statement of financial position date. Also, fair values of financial instruments carried at amortized cost and investment properties carried at cost are measured for disclosure purposes.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External appraisers are involved for valuation of significant non-financial assets, such as investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

The following table provides the fair value hierarchy of the Group's assets and liabilities measured at fair value and those for which fair values are required to be disclosed as of June 30, 2016 and December 31, 2015 as follows:

	Consolidated				
	June 30, 2016

6. Segment Reporting

The Group’s main operating businesses are organized and managed primarily, according to the current organizational structure. Each segment represents a strategic business unit that caters to the bank’s identified markets. The Group’s business segments are:

(a) **Retail banking -** this segment mainly covers traditional branch banking products and services such as deposits, back-to-back/emerging market loans and other over-the-counter (OTC) transactions. It likewise caters to the needs of high net-worth clients for alternative investment channels. It includes entire transaction processing, service delivery and infrastructure consisting of the Group’s network of branches, automated teller machines as well as its internet banking platform;

(b) **Corporate banking -** this segment handles lending and trade financing for both large corporations and middle market clients;

(c) **Consumer lending -** this segment primarily caters to loans for individuals;

(d) **Treasury and Trust -** this segment consists of Treasury and Trust operations of the Group. Treasury focuses on providing money market, trading and treasury services, as well as the management of the Group's funding operations through debt securities, placements and acceptances with other banks. Trust includes fund management, investment management services, custodianship, administration and collateral agency services, and stock and transfer agency services. In addition, the Parent Company through Trust, provides retail customers with alternative investment opportunities through its unit investment fund products.

The 'Elimination Items' includes the Group's executive office and elimination items related to the Group's segment reporting framework.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment assets are those operating assets employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating activities of a segment and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Interest income is reported net, as management primarily relies on the net interest income as performance measure, not the gross income and expense. The Group's revenue-producing assets are located in the Philippines (i.e., one geographical location); therefore, geographical segment information is no longer presented. The Group has no significant customers which contribute 10.00% or more of the consolidated revenue, net of interest expense.

The segment results include internal transfer pricing adjustments across business units as deemed appropriate by management. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to the business units based on a pool rate which approximates the marginal cost of funds.

Segment information of the Group as of and for the six months ended June 30, 2016 (in millions):

Noninterest income consists of service charges, fees and commissions, gain on sale of assets, gain on asset foreclosure and dacion transactions, trading and securities gain, gain on sale of investment securities at amortized cost, foreign exchange gain, trust income, share in net loss of a joint venture and miscellaneous income. The share in net loss of a joint venture has been presented as part of the elimination items in the Group's segment reporting framework. Noninterest expense consists of compensation and fringe benefits, taxes and licenses, depreciation and amortization, rent, amortization of intangible assets, provision for impairment and credit losses, and miscellaneous expenses.

7. Trading and Investment Securities

As of June 30, 2016, the Bank's investments comprise of debt and equity securities.

The Bank has no significant derivative instruments which may impact its financial condition as of June 30, 2016.

8. Goodwill and Other Intangible Assets

This consists of goodwill, customer relationship, core deposits, branch licenses and capitalized software from its acquisition of East West Rural Bank, Green Bank, Inc., and AIG Philam Savings Bank, Inc.

As of June 30, 2016, goodwill is not considered impaired, hence, no impairment has been recognized by the Bank.

9. Equity

Capital Management

The Bank actively manages its capital to comply with regulatory requirements, enable growth targets, withstand plausible stress events and be at par with the Bank's peers. The primary objective of the Bank's capital management is to ensure that it maintains adequate capital to cover risks inherent to its banking activities without prejudice to optimizing shareholders' value.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Bank's compliance with regulatory requirements and ratios is based on the amount of the 'unimpaired capital' (regulatory net worth) reported to the BSP, which is determined on the basis of regulatory policies. In addition, the risk-based Capital Adequacy Ratio (CAR) of a bank, expressed as a percentage of qualifying capital to risk-weighted assets, should not be less than 10.00% for both solo basis (head office and branches) and consolidated basis (EW and subsidiaries engaged in financial allied undertakings). Qualifying capital and risk-weighted assets are computed based on BSP regulations.

Capital Stock

Capital stock consist of (amounts in thousands, except for par value and number of shares):

	Shares		**Amount**	
	June 30, 2016	December 31, 2015	**June 30, 2016**	December 31, 2015
Authorized:				
Common stock – 10.00 par value	**1,500,000,000**	1,500,000,000		
Preferred stock – 10.00 par value	**500,000,000**	500,000,000		
Common stock issued and outstanding:				
Balance at the beginning of the year	**1,499,983,610**	1,128,409,610	**₱14,999,836**	₱11,284,096
Issuance of stock rights	**-**	371,574,000	-	3,715,740
Balance at year end	**1,499,983,610**	1,499,983,610	**₱14,999,836**	₱14,999,836

Stock Rights

On May 8, 2015, a total of 371,574,000 common shares were listed at the PSE with ₱10.00 par value per share. The total proceeds raised by the Parent Company from the sale of the said shares amounted to ₱8.00 billion while the net proceeds (after deduction of direct costs related to equity issuance) amounted to ₱7.95 billion. The net proceeds were used to invest in securities allowed under BSP regulation and to fuel growth in loans.

10. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- key management personnel, close family members of key management personnel, and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members,
- subsidiaries, joint ventures and associates and their respective subsidiaries, and
- post-employment benefit plans for the benefit of the Group's employees.

The Group has several business relationships with related parties. Transactions with such parties are made in the ordinary course of business and on substantially same terms, including interest and collateral, as those prevailing at the time for comparable transactions with other parties. These transactions also did not involve more than the normal risk of collectability or present other unfavorable conditions.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly. The Group considers the members of the Management Committee to constitute key management personnel for purposes of PAS 24. The Group provides banking services to its key management personnel.

Other related parties pertain to the Group's affiliates (subsidiaries of FDC).

The Group and the Bank had no outright purchases and outright sale of debt securities with significant shareholders and key management personnel in 2016 and 2015.

No provision and allowance for loan losses was recognized by the Group for loans to significant investors, key management personnel and other related parties in 2016 and 2015.

The Bank's subsidiaries have no transactions with related parties outside of the Group.

11. Commitments and Contingent Liabilities

In the normal course of the Group's operations, there are various outstanding commitments and contingent liabilities which are not reflected in the accompanying financial statements. The Group does not anticipate material unreserved losses as a result of these transactions.

The Group has several loan related suits and claims that remain unsettled. It is not practicable to estimate the potential financial impact of these contingencies. However, in the opinion of management, the suits and claims, if decided adversely, will not involve sums having a material effect on the Group's financial statements.

12. Financial Performance

Earnings per share amounts were computed as follows:

		June 2016	June 2015
a.	Net income attributable to equity holders of the Bank	**₱ 1,563,163**	₱ 1,007,737
b.	Weighted average number of outstanding common shares (as previously reported)		1,252,268
c.	Basic and diluted EPS, as previously reported (a/b)		₱0.80
d.	Weighted average number of outstanding common shares by the Bank, including effect of stock rights issued in 2015	**1,499,984**	1,274,486
e.	Basic and diluted EPS (a/d)	**₱1.04**	₱0.79

**The Bank has no potentially dilutive shares as of June 30, 2016 and 2015.*

13. Subsequent Event

On July 21, 2016, the BSP approved and confirmed the request of the Bank for an investment in a proposed wholly-owned leasing company. Also, on August 8, 2016, the BSP approved the Bank's purchase of assets and assumption of liabilities of the retail banking business, including three branches, of Standard Chartered Bank Philippine Branch, subject to regulatory conditions.
