INVESTMENT OBJECTIVE AND STRATEGY

The Fund, operating as a feeder fund, intends to achieve for its participants long-term capital appreciation through investing primarily in a portfolio of listed Philippine equities. The Fund aims to match or exceed the return of the Philippine Stock Exchange Index (PSEi). Toward this end, the Fund shall invest all or substantially its assets in the Philequity Fund, Inc.

CLIENT SUITABILITY

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

- The Fund is suitable for investors who: (a) have high risk appetite; and (b) are looking for capital growth over an investment time horizon of at least 5 years through a managed portfolio of equity securities.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

- The target fund, Philequity Fund, employs a risk management policy based on appropriate diversification of investments intended to generate long term appreciation of the Fund.
- Investors may not get back the value of their original investment upon redemption.
- The value of the Fund may rise or fall. You may lose some or all of your investment depending on the performance of the underlying securities. Factors that may affect the performance of these securities include, without limitation, market risks, fluctuations in interest rates, political instability, exchange controls, changes in taxation and foreign investment policies. Some of the key risks associated with the Fund are described below:
 - Counterparty risk -- Potential or actual losses arising from risks particular to a feeder fund arrangement, as the fund is significantly dependent upon the target fund's communicated investment strategy including excessive concentration as well as timing of data transmittal.
 - Market risk – Potential or actual losses arising from adverse changes in market prices of securities.
 - Liquidity Risk – Potential or actual losses arising from the Fund's inability to convert its assets into cash immediately at minimal cost.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

OTHER DISCLOSURES

RELATED PARTY TRANSACTIONS. The Fund's target fund (PhilEquity Fund, Inc.) has holdings of Filinvest Land Inc. shares of stocks. The Fund has deposits with EastWest Bank amounting to Php 753,774.00.

OUTLOOK AND STRATEGY As widely expected, the Federal Reserve reduced its interest rate target for the 3rd time this year. The current range is 1.50-1.75% and is described as being "appropriate" with the outlook of the Central Bank. White House Economic Adviser Larry Kudlow stated that the US and China are ironing out the final details for a trade deal and investors are awaiting developments on this front. On the local side, 3Q GDP surprised at 6.2% YoY rebounding from the weak GDP seen in 1H19. MSCI rebalancing led to an outflow of foreign funds as the last tranche of Chinese A-shares were added to the index. Expect the PSEi to rebound as earnings growth and attractive valuations will likely lead to a Philippine share recovery.

PROSPECTIVE INVESTMENT. The Fund's prospective investments, depending on availability and market development, may include but are not limited to, PhilEquity Fund, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations. Investment in the PhilEquity Fund may amount up to 100% of total assets but shall not fall below 90% of total assets of the Fund.
