**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST PESO INTERMEDIATE TERM BOND FUND** (the “Fund”) is a peso-denominated fixed income fund that intends to provide its participants with the potential to earn intermediate-term returns higher than traditional bank deposits. It is invested in government securities, corporate bonds and notes and term deposits. The Fund maintains a weighted average portfolio life of between one (1) to three (3) years. Outside of the context of a portfolio, it is suitable for investors seeking capital growth over an investment time horizon of at least 3 years through a managed portfolio of fixed-income instruments. The fund’s objective is to exceed the benchmark.

- **THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
- **DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.**
- **ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT.**
- **AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**
- **THE UIT FUND IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUSTEE, ITS AFFILIATES OR SUBSIDIARIES.**
- **THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF’S DECLARATION OF TRUST, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/ PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.**

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest’s 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

The Fund's benchmark is the **Bloomberg Philippine Sovereign Bond Index 1-3 Year (BPHIL13)**.

#### Description of the Benchmark

- The Bloomberg Philippine Sovereign Bond Index 1-3 Year (BPHIL13) is a rules-based market-value weighted index engineered to measure the fixed-rate local currency securities publicly issued by the Philippines, including retail securities. To be included in the index a security must have a minimum par amount of PHP 3 billion. (Source: Bloomberg).

#### Key Characteristic of the Benchmark

- The BPHIL13 tracks the performance of peso-denominated bonds issued by the Philippine government. It comprises of peso-denominated fixed rate securities with tenors that are 1-3 years. The BPHIL 13 is not net of taxes.

#### Use of the Benchmark

- The fund is designed for Moderate Risk appetite investors looking for Moderate returns on their investment through capital appreciation. The fund will invest in peso-denominated intermediate-term securities. The benchmark would give be a comparable metric given the fixed income assets of the portfolio.
- **There are immaterial misalignments between the benchmark and the Fund since the benchmark is not net of taxes.** The benchmark only tracks the price movements of its underlying securities. Taxes and other fees deducted from the Fund also affect the Net Asset Value.

#### Relevant Sources for further benchmark information:

- PDS (<https://www.pds.com.ph/>)
- Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
- Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

### **CLIENT SUITABILITY**

---

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have a moderate risk appetite
  - Are seeking capital growth over an investment time horizon of at least three (3) years
  - Are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better intermediate-term results
- 

### **KEY RISKS AND RISK MANAGEMENT**

---

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- Prospective investors need to consider certain risks prior to participation in the Fund. The market value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.
- Participation in this peso-denominated intermediate-term fixed income fund carry the following risks:
  - **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - **Reinvestment Rate Risk.** This is the risk that interest earnings, or the proceeds from the sale or maturity of a bond investment, is reinvested at a rate lower than its original investment, thus reducing the investor's periodic income.

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Credit Risk.** This is the possibility for an investor to experience losses due to a borrower’s failure to pay principal and/or interest in a timely manner. Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer’s ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Market Risk.** Market Risk is the possibility for an investor to experience losses due to changes in market prices of securities. It is the risk of a UITF to lose value due to a decline in the prices of securities, which may sometimes happen rapidly or unexpectedly. There are market factors affecting all securities that cannot be controlled by diversification, such as the sentiment of investors as a whole which is unpredictable. Market downturns can come swiftly and last a long time.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. Liquidity risk is minimized by investing in marketable securities.
- **Inflation Risk.** Inflation is the general upward price movement of goods or services in an economy, resulting to a reduction in the purchasing power of money. Inflation affects all investments. An investor would want the value of his investment to keep pace or exceed the rate by which the prices of goods and services go up. Historically, inflation risk is greatest for short-term guaranteed securities like time deposits and treasury bills.
- **Country Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs, tax increases, and other changes in regulations.”
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by the Trustee.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates.

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

\*Volatility measures the degree to which the Fund fluctuates on a daily basis vis-à-vis its average return over a period of time.

\*\*Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better. Risk Free Rate used is the Average Philippine 3Y Benchmark Rate.

\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

\*\*\*\*New benchmark approved October 31, 2019

\*\*\*\*\*The benchmark is not net of taxes. This may cause a discrepancy between the benchmark and the fund.

## **OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has bond investments in Filinvest Land amounting to P1.00 million and a time deposit placement in East West Bank amounting to P4.84 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on bonds with tenors of five years and shorter jumped nearly 56 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued by corporations and traded in an organized exchange, securities issued by or guaranteed by any government of a foreign country or any political subdivision of a foreign country, securities issued by any supranational entity, loans traded in an organized exchange, savings and time deposits in any bank or financial institution, and other tradable investment outlets categories as the BSP may allow.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST DOLLAR INTERMEDIATE TERM BOND FUND** (the “Fund”) is a USD-denominated Fixed Income fund that intends to provide its participants the potential to earn enhanced intermediate-term returns by investing in sovereign bonds issued by the Republic of the Philippines and other countries, corporate notes and bonds, term deposits and other tradable instruments. The Fund has a weighted average portfolio life of between one (1) to three (3) years. Outside of the context of a portfolio, it is suitable for investors seeking capital growth over an investment time horizon of at least three (3) years through a managed portfolio of fixed-income instruments.

The portfolio’s benchmark was changed to the **EM USD Aggregate Philippine Sovereign 1-3 Index**, replacing the previous blend of 25% Bloomberg USD Emerging Market Philippines Sovereign Bond Index and 75% Average Philippine US Dollar Savings Deposit Rate, effective April 16, 2025, in order to provide a more comparable measure of returns, in

line with the fund's amended strategy to maintain a weighted average portfolio life of between one to three years. The Fund aims to exceed its benchmark.

The Benchmark: The Fund's benchmark is EM USD Aggregate Philippine Sovereign 1-3 Index (I35423 Index)

- Description of the Benchmark
  - o The Bloomberg EM USD Aggregate Philippine Sovereign 1-3 Index tracks dollar- denominated sovereign bonds issued by the Republic of the Philippines, the remaining life of which shall be between an intermediate period of 1-3 Years. The aim of the benchmark is to represent the performance of the Philippine sovereign debt market in US dollars. (Source: Bloomberg)
- Key Characteristic of the Benchmark
  - o The Bloomberg EM USD Aggregate Philippine Sovereign 1-3 Index consists of US Dollar denominated bonds that have a maturity within a 1-3 Year period. It is a Total Returns Benchmark, but its returns are not net of taxes.
- Use of the Benchmark
  - o The Fund is designed for Moderate-Risk appetite investors looking for returns on their investments through capital appreciation by investing in a managed dollar-denominated fund with an investment time horizon of at least three (3) years. The benchmark would be a comparable metric given it measures the performance of the same type of instruments, and tenors that the fund plans to invest in. The benchmark would give a comparable measure for the portfolio.
  - o **There are immaterial misalignments between the Fund and the benchmark since the benchmark is not net of taxes.** This can cause a difference between the returns of the funds compared to the returns of the benchmark.
- Relevant Sources for further benchmark information:
  - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
  - o Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

## **CLIENT SUITABILITY**

---

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- (a) have a moderate risk appetite and,
  - (b) looking for returns on their investments through capital appreciation by investing in a managed dollar-denominated fund with an investment time horizon of at least three (3) years
  - (c) are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better intermediate-term results
- 

## **KEY RISKS AND RISK MANAGEMENT**

---

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- Prospective investors need to consider certain risks prior to participation in the Fund. The market value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.
  - Participation in this USD-denominated intermediate-term fixed income fund carry the following risks:
    - o **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
    - o **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- 

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5th Ave. cor. 23rd St., Bonifacio Global City Taguig. EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Foreign Exchange Risk.** Foreign exchange risk exists when investments are made in securities that are denominated in a currency that is different from the one spent. For example, the earnings of a USD-denominated bond investment could be reduced or even negated by an appreciation of the Philippine Peso vis-à-vis the US Dollar.
- **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Inflation Risk.** Inflation is the general upward price movement of goods or services in an economy, resulting in a reduction in the purchasing power of money. Inflation affects all investments. An investor would want the value of his investment to keep pace or exceed the rate by which the prices of goods and services go up. Historically, inflation risk is greatest for short-term guaranteed securities like time deposits and treasury bills.
- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EastWest Bank-Trust.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates.

This is to provide a more comparable measure of returns with respect to the fund's strategy.

## **OTHER DISCLOSURES**

**OUTLOOK AND STRATEGY.** Yields on US government securities with tenors of up to five years increased by an average of 6 basis points as higher fuel and energy prices during the first two months of US-Iran war helped pushed the Federal Reserve's preferred inflation measure further away from its target. The PCE price index in March and April were up 3.5% yoy and 3.8% yoy, respectively. The core PCE price index likewise accelerated to 3.2% and 3.3%, respectively. Meanwhile, the US labor market remained strong as US nonfarm payrolls in March and April grew by 178,000 and 115,000 jobs, respectively. The March figure would still beat expectations even without the boost from the healthcare strike reversal. Both exceeded expectations in those months, which led market participants to price in an interest rate hike later this year.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued or guaranteed by corporations and traded in an organized exchange, securities issued or guaranteed by any government of foreign country or any political subdivision of foreign country, securities issued or guaranteed by any supranational entity, loans traded in an organized exchange, savings and time deposits in any bank of financial institution, and other tradable investment outlets categories as the BSP may allow.

#### Description of the Benchmark

- The Bloomberg Philippine Sovereign Bond Index AI (BPHILR) is a rules-based market-value weighted index engineered to measure the fixed-rate local currency securities publicly issued by the Philippines, including retail securities. To be included in the index a security must have a minimum par amount of PHP3 billion. (Source: Bloomberg)

#### Key Characteristics of the Benchmark

- The BPHILR tracks the performance of peso-denominated bonds issued by the Philippine government, and government-guaranteed entities. The BPHILR is not net of taxes.

#### Use of the Benchmark

- The FUND is designed for Aggressive Risk appetite investors looking for higher returns on their investment through capital appreciation with a long-term investment time horizon. The FUND will invest in peso-denominated long-term securities. The benchmark would give be a comparable metric given the fixed income assets of the portfolio.
- **The BPHILR is not net of taxes. Due to the taxable nature of the FUND, there are minor and immaterial misalignments between the FUND and the benchmark.**

#### Relevant Sources for further benchmark information:

- PDS (<https://www.pds.com.ph/>)
- Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
- Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

### **CLIENT SUITABILITY**

---

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have an aggressive risk appetite
  - Are looking for long-term capital growth over an investment time horizon of at least ten (10) years through a managed portfolio of fixed-income instruments.
  - Are willing to accept higher risks involving volatility of return and possible erosion of principal for potentially better long-term results
- 

### **KEY RISKS AND RISK MANAGEMENT**

---

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- Prospective investors need to consider certain risks prior to participation in the Fund. The market value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.
- Participation in this peso-denominated long-term bond fund carry the following risks:
  - **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - **Reinvestment Rate Risk.** This is the risk that interest earnings, or the proceeds from the sale or maturity of a bond investment, is reinvested at a rate lower than its original investment, thus reducing the investor's periodic income.
  - **Credit Risk.** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner. Bonds represent a loan made to the issuer of the bond. The

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.

- **Market Risk.** Market Risk is the possibility for an investor to experience losses due to changes in market prices of securities. It is the risk of a UITF to lose value due to a decline in the prices of securities, which may sometimes happen rapidly or unexpectedly. There are market factors affecting all securities that cannot be controlled by diversification, such as the sentiment of investors as a whole which is unpredictable. Market downturns can come swiftly and last a long time.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. Liquidity risk is minimized by investing in marketable securities.
- **Inflation Risk.** Inflation is the general upward price movement of goods or services in an economy, resulting to a reduction in the purchasing power of money. Inflation affects all investments. An investor would want the value of his investment to keep pace or exceed the rate by which the prices of goods and services go up. Historically, inflation risk is greatest for short-term guaranteed securities like time deposits and treasury bills.
- **Country Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs, tax increases, and other changes in regulations.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EastWest Bank-Trust.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVpU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVpU will fluctuate in relation to changes in interest rates.

## FUND PERFORMANCE AND STATISTICS AS OF 29 MAY 2026

(Purely for reference purposes and is not a guarantee of future results)

<https://www.bsp.gov.ph>

\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

\*\*\*New benchmark approved October 31, 2019

\*\*\*\* The benchmark is not net of taxes. This may cause a discrepancy between the benchmark and the fund.

#### **OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has bond investments in Filinvest Land amounting to P0.27 million and a time deposit with East West Bank amounting to P4.04 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on bonds with tenors of five years and longer jumped nearly 57 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued or guaranteed by corporations and traded in an organized exchange, securities issued or guaranteed by any government of a foreign country or any political subdivision of a foreign country, securities issued or guaranteed by any supranational entity, loans traded in an organized exchanged, savings and time deposits in any bank or financial institution, and other tradable investment outlets categories as the BSP may allow.

**INVESTMENT OBJECTIVE AND STRATEGY**

 The **EASTWEST PHILEQUITY FEEDER FUND** (the "Fund") seeks to provide its participants long term capital appreciation by participating in the growth of share values of corporations listed on the Philippine Stock Exchange. It is ideal for investors

- ❖ THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).
- ❖ DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.
- ❖ ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT.
- ❖ AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.
- ❖ THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.
- ❖ THE UIT FUND IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUSTEE, ITS AFFILIATES OR SUBSIDIARIES.
- ❖ THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF'S DECLARATION OF TRUST, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/ PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.

 EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

 EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

with a long-term investment horizon of at least ten (10) years who want to have exposure in Philippine stocks and who understand the investment risks involved when investing in equity securities.

As a feeder fund, this Fund is mandated to invest at least 90% of its assets in a single collective investment scheme or target fund. The target fund is the Philequity, Inc.. It is an actively managed equity mutual fund, by Philequity Management inc. Its investment objective is to exceed the returns of the PSEi, by investing in the same equities listed in the Philippine Stock Exchange.

**Return Objective:** The Fund aims to match or exceed the return of the Philippine Stock Exchange Composite Index (the "PSEi").

- Description of the Benchmark
  - o The Philippine Stock Exchange Composite Index measures the relative changes in the free float-adjusted market capitalization of the 30 largest and most active common stocks listed at the PSE. (Source: Philippine Stock Exchange, Inc.)
- Key Characteristic of the Benchmark
  - o The PSEi's bucket of the top thirty (30) common stocks are based on a fixed set of rules that allow it to represent the general movement of the Philippine stock market.
- Use of the Benchmark
  - o The fund is designed for aggressive risk appetite investors looking for returns on their investments through capital appreciation. The fund will invest in Equities listed in the Philippine Stock Exchange.
  - o However, there is some misalignment between the fund and benchmark due to the Total Returns and taxable nature of the Fund which can create differences in returns. The PSEi is not a Total Returns Index, nor is it net of taxes.
- Sources for more detailed information
  - o Philippine Stock Exchange ([pse.com.ph](http://pse.com.ph))
  - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).
  - o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

## **CLIENT SUITABILITY**

---

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- (a) have aggressive risk appetite; and
- (b) are looking for capital growth over an investment time horizon of at least ten (10) years who want to have exposure in Philippine stocks.
- (c) Are willing to accept higher risks involving volatility of returns and even possible loss of investment in return for potential higher long-term results

## **KEY RISKS AND RISK MANAGEMENT**

---

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- The target fund, Philequity Fund Inc., employs a risk management policy based on appropriate diversification of investments intended to generate long-term appreciation of the Fund.
- The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.
- The Fund which shall be substantively invested in a diversified portfolio of listed Philippine shares of stock is exposed to the following risks:

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Business Risk.** Stockholders as fractional owners of corporations share in the fortunes of the business. The rise and fall of stock prices often reflect the market's perception of the prospects of corporations and their management to reward stockholders for taking risks unique to each business. Business risk can be reduced through diversification.
- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally falls when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

## **OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement with East West Bank amounting to P1.21 million. The Fund's target fund (PhilEquity Fund, Inc.) may hold common shares of East West Banking Corporation and its related parties as part of its own discretionary active management.

**OUTLOOK AND STRATEGY.** The PSEi Total Return Index inched 0.5% lower in May after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists.

ACEN Corp (+16.2%), Aboitiz Equity Ventures (+9.3%) and ICTSI (+6.0%) led all index gainers, while DigiPlus (-22.7%), Jollibee (-20.2%) and Converge ICT (-13.4%) were the index laggards in May.

The PSEi is down 2.5% year-to-date, including dividends. ICTSI (+32.7%), Monde Nissin (+22.1%) and ACEN Corp (+21.3%) lead all index gainers, while DigiPlus (-32.2%), Ayala Land (-35.1%) and Century Pacific Food (-32.8%) were the index laggards.

**PROSPECTIVE INVESTMENT.** The Fund's prospective investments, depending on availability and market development, may include but are not limited to, PhilEquity Fund, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations. Investment in the PhilEquity Fund may amount up to 100% of total assets but shall not fall below 90% of total assets of the Fund.

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

The **EASTWEST PSEI TRACKER Fund** (the “Fund”) seeks to achieve investment returns that track the performance of the Philippine Stock Exchange Total Returns Index by investing in a diversified portfolio of stocks comprising the PSEi in the same weights as the index. The Fund will be passively managed by EastWest Banking Corporation through its Trust and Asset Management Group. It is ideal for investors with a long-term investment horizon of at least ten (10) years.

**Return Objective:** The Fund aims to track the return of the **Philippine Stock Exchange Total Returns Index (PSEi TRI)**.

- Description of the Benchmark
  - o The Philippine Stock Exchange Total Returns Index is computed on a total returns basis. The PSEi TRI covers both price performance and income from dividend payments by reinvesting cash dividends according to their respective market capitalization weightings. This provides investors with an alternative way of viewing index returns as if the cash dividends received are reinvested back into the index. (Source: Philippine Stock Exchange, Inc.).
- Key Characteristic of the Benchmark
  - o The PSEi’s bucket of the top thirty (30) common stocks are based on a fixed set of rules that allow it to represent the general movement of the Philippine stock market.
  - o **The PSEi TRI is total returns in nature. However, it is not net of applicable taxes.**
- Relation of the Benchmark’s to the FUND’s objectives or investment strategies
  - o The Fund is designed for high-risk appetite investors looking for returns on their investments through capital appreciation of their investment. The fund will invest in Equities listed in the Philippine Stock Exchange. However, there is some misalignment between the fund and benchmark. The PSEi TRI is not net of taxes.
  - o The Fund’s underlying securities may generate dividends which may be reinvested back into its Net Assets.
  - o **The benchmark reflects the price performance and income from dividend payments of the underlying index constituents. It is not net of applicable taxes. Minor misalignments between the Fund and the benchmark may occur due to differences in taxes.**
- Sources for more detailed information
  - o The Philippine Stock Exchange, Inc. — PSE. (<https://www.pse.com.ph/>).
  - o For additional information on the benchmark, investors may reach out to the Market Data Department of The Philippine Stock Exchange, Inc. via [market.data@pse.com.ph](mailto:market.data@pse.com.ph).
  - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).
  - o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

## **CLIENT SUITABILITY**

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is ideal for investors who:

- (a) have aggressive risk appetite; and
- (b) are looking for capital growth with a long-term investment horizon of at least ten (10) years.
- (c) are willing to accept higher risks involving volatility of returns and even possible loss of investment in return for potential higher long-term results

## **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest’s 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.

The Fund which shall be substantively invested in a diversified portfolio of listed Philippine shares of stock is exposed to the following risks:

- **Business Risk.** Stockholders as fractional owners of corporations share in the fortunes of the business. The rise and fall of stock prices often reflect the market's perception of the prospects of corporations and their management to reward stockholders for taking risks unique to each business. Business risk can be reduced through diversification.
- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EW-TAMG.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

### Cumulative Return

	1Mo	YTD	1Yr	3Yr
Fund	-0.61%	-2.90%	-6.63%	-4.83%
Benchmark	-0.54%	-2.49%	-5.65%	-2.06%

\*Volatility measures the degree to which the Fund fluctuates on a daily basis vis-à-vis its average return over a period of time.

\*\*Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better. Risk Free Rate used is the Average Philippine 10Y Benchmark Rate.

\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

\*\*\*Tracking error is a measure of the deviation of the Fund's returns from the benchmark (PSE Index) and the total return variant of the benchmark (PSEi Total Return Index). The lower the number, the better.

\*\*\*\* Effective April 02, 2026, the portfolio's benchmark was changed to the **Philippine Stock Exchange Total Returns Index (PSEi TRI)**, replacing the previous benchmark of **Philippine Stock Exchange Composite Index (PSEi)**. This is to provide a more comparable measure of returns with respect to the fund's strategy.

## OTHER DISCLOSURES

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement in East West Bank amounting to P36.72 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** The PSEi Total Return Index inched 0.5% lower in May after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists.

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

ACEN Corp (+16.2%), Aboitiz Equity Ventures (+9.3%) and ICTSI (+6.0%) led all index gainers, while DigiPlus (-22.7%), Jollibee (-20.2%) and Converge ICT (-13.4%) were the index laggards in May.

The PSEi is down 2.5% year-to-date, including dividends. ICTSI (+32.7%), Monde Nissin (+22.1%) and ACEN Corp (+21.3%) lead all index gainers, while DigiPlus (-32.2%), Ayala Land (-35.1%) and Century Pacific Food (-32.8%) were the index laggards.

PROSPECTIVE INVESTMENT. The Fund's prospective investments, depending on availability and market development, may include but are not limited to, stocks in the Philippine Stock Exchange Index, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST PESO MONEY MARKET** Fund (the “Fund”) aims to provide its participants liquidity and stable income derived from diversified portfolio of bank deposits and fixed income instruments with remaining terms to maturity of not more than three (3) years and has a weighted average portfolio life of one (1) year or less. The fund will be managed by EW Trust Division. It is ideal for investors with moderate risk profile with a one-year investment time horizon. The Fund aims to exceed the return of the Bloomberg Philippine Sovereign Bond Index Money Market, Adjusted.

The Benchmark: The Benchmark is the Bloomberg Philippine Sovereign Bond Index Money Market (BPHILMM).

**Description of the Benchmark**

- The BPHILMM is a rules-based market-value weighted index engineered to measure the fixed-rate and zero-coupon local currency securities publicly issued by the Philippines, including retail securities. To be included in the index, a security must have a minimum par amount of PHP 3 billion. (Source: Bloomberg)

- **THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
- **DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.**
- **ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT.**
- **AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**
- **THE UIT FUND IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUSTEE, ITS AFFILIATES OR SUBSIDIARIES.**
- **THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF’S DECLARATION OF TRUST, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/ PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.**

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest’s 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

#### Key Characteristic of the Benchmark

- The BPHILMM tracks the performance of peso-denominated bonds issued by the Philippine government. It comprises zero-coupon and fixed rate securities with tenors less than or equal to a year.

#### Use of the Benchmark

- The benchmark provides a standard for evaluating the Fund's performance by providing a comparable metric given the fixed income assets of the portfolio for investors/participants to understand how the Fund is performing. The fund's goal is to outperform this benchmark.
- **There are immaterial misalignments between the benchmark and the Fund since the benchmark is not net of taxes.** The benchmark only tracks the price movements of its underlying securities. Taxes and other fees deducted from the Fund also affect the Net Asset Value.

#### Sources for more detailed information:

- Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
- Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

---

### CLIENT SUITABILITY

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

#### The Fund is suitable for investors who:

- Have a moderate risk appetite
  - Are looking for a portfolio which may provide higher income than traditional time deposits but requires short-term liquidity with a one-year investment time horizon.
  - Are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better short-term results
- 

### KEY RISKS AND RISK MANAGEMENT

---

#### **You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.
- The Fund is exposed to the following risks:
  - **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
  - **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
  - **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
  - **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
  - **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by the Trustee.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates.

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

## **OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement in East West Bank amounting to P64.31 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on government securities with tenors of one year and shorter jumped nearly 54 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments may include securities issued or guaranteed by the Philippine government, tradable securities issued by financial institutions or private corporations, marketable instruments and loans that are traded in an organized exchange, bank deposits, similar collective investment vehicles subject to existing BSP regulations, and such other investment outlets/categories the BSP allow.

<https://www.bsp.gov.ph>

## INVESTMENT OBJECTIVE

The **EASTWEST S&P 500 INDEX FEEDER FUND** (the “Fund”) is a US Dollar-denominated unit investment trust fund that seeks to achieve investment returns that track the total return of the S&P 500 Index. The target fund, **iShares Core S&P 500 Exchange Traded Fund**, tracks the performance of the benchmark index. It is ideal for investors with a long-term investment horizon who want to have a global exposure in stocks and who understand the investment risks involved when investing in equities. To invest in these securities, the Fund has East West Banking Corporation as Trustee.

**Return Objective:** The Fund aims to track the returns of the **S&P 500 Total Returns Index (SPTR Index)**

- Description and Key Characteristics of the Benchmark
  - o The S&P 500 Index is a stock market index tracking the performance of 500 large-cap companies listed on stock exchanges in the United States. It's considered a broad measure of the U.S. equity market and is often used as a benchmark for investment performance. The index is weighted by market capitalization, meaning companies with higher valuation have a larger influence on the index's movement.
  - o The benchmark is administered by an independent third party and is not controlled, managed, or operated by the Trustee.
  - o The S&P 500 Total Returns Index (SPTR INDEX) tracks both the price performance and income from dividend payments of S&P 500 Index constituents by reinvesting cash dividends back into the index.
  - o **S&P 500 Total Returns Index (SPTR INDEX) is total returns in nature. The SPTR Index is not net of taxes.**
- Relation of the Benchmark's to the fund's objectives/investment strategies
  - o The fund is designed for aggressive risk appetite investors looking for returns on their investments that track the return of the Index Benchmark. As a feeder fund, this will invest in a fund that tracks the S&P 500 Total Returns Index. The benchmark would be the most appropriate as it aims to track its performance.
  - o **S&P 500 Total Returns Index (SPTR INDEX) is total returns in nature. The SPTR Index is not net of taxes. Taxes and other fees deducted from the Fund also affect the Net Asset Value. There are some minimal discrepancies caused by these differences.**
- Sources for more detailed information
  - o S&P Dow Jones Indices ([S&P 500® | S&P Dow Jones Indices \(spglobal.com\)](https://www.spglobal.com))
  - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).
  - o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

## CLIENT SUITABILITY

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- (a) have aggressive risk appetite; and
- (b) have a long-term investment horizon;
- (c) are willing to accept higher risks involving volatility of returns and even possible loss of investment in return for potential higher long-term results.

## KEY RISKS AND RISK MANAGEMENT

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- The target fund, iShares Core S&P 500 Exchange Traded Fund, employs a risk management policy based on appropriate diversification of investments intended to generate long term appreciation of the Fund.
- The value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns.

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.

- The Fund which shall be substantively invested in a diversified portfolio of listed US shares of stock is exposed to the following risks:
  - **Business Risk.** Stockholders as fractional owners of corporations share in the fortunes of the business. The rise and fall of stock prices often reflect the market's perception of the prospects of corporations and their management to reward stockholders for taking risks unique to each business. Business risk can be reduced through diversification.
  - **Country/Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
  - **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
  - **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
  - **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
  - **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
  - **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
  - **Foreign Exchange Risk.** Foreign exchange risk exists when investments are made in securities that are denominated in a currency that is different from the one spent. For example, the earnings of a USD-denominated bond investment could be reduced or even negated by an appreciation of the Philippine Peso vis-à-vis the US Dollar.
  - **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EastWest Bank-Trust.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

\*\*\*\* Effective April 2, 2026, the portfolio's benchmark was changed to the **S&P 500 Total Returns Index (SPTR Index)**, replacing the previous benchmark of **S&P 500 Index (SPX Index)**. This is to provide a more comparable measure of returns with respect to the fund's strategy.

### OTHER DISCLOSURES

**OUTLOOK AND STRATEGY.** The S&P 500 posted a total return of 5.3% in May as investors discounted higher consumer prices due to the Iran war and fading hopes for further interest rate cuts in favor of strong corporate earnings. Profits were up 30% year-on-year, mainly driven by the technology sector, but ex-tech earnings remained robust (+20% yoy). However, only three out of 11 sectors recorded monthly gains, and technology shares effectively carried the entire index by itself, due to the sector's 39% weight and nearly 16% monthly gain.

Consumer discretionary and health care were the only other sectors in the black with gains of 2.6% and 2.3%, respectively. While energy (-6.1%), utilities (-5.5%) and consumer staples (-3.3%) were the laggards, their losses were muted due to relatively low index weights. Dell Technologies (+101.4%), Micron Technology (+87.8%) and Datadog Inc (+87.1%) led all index gainers in May, while Zoetis Inc (-32.4%), Autozone Inc (-20.8%) and Dow Inc (-16.7%) were the month's laggards.

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

The S&P 500 is now up 10.3% year-to-date, including dividends. SanDisk Corp (+614.0%), Micron Technology (+240.2%) and Dell Technologies (+234.4%) posted the largest gains YTD, while Costar Group (-52.1%), Intuit Inc (-50.0%) and Boston Scientific Corp (-49.3%) were the worst-performing stocks of the year.

PROSPECTIVE INVESTMENT. The Fund's prospective investments, depending on availability and market development, may include but are not limited to, iShares Core S&P 500 ETF, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations. Investment in the iShares Core S&P 500 ETF may amount to 100% of total assets but shall not fall below 90% of total assets of the Fund.

## INVESTMENT OBJECTIVE AND STRATEGY

The **EASTWEST PESO MULTI-ASSET Fund** (the “Fund”) aims to provide its participants with a growing stream of income and achieving long-term capital appreciation from a diversified investment portfolio. It will be actively managed by the EastWest Banking Corporation through its Trust and Asset Management Group. This Fund is ideal for investors with an aggressive risk profile and a long-term investment horizon of at least ten (10) years.

The Target Asset Allocation of the Fund shall be 70% in Equities with 30% in Fixed Income. For both asset classes, the minimum allocation shall not be less than 20%, with its maximum not exceeding 80%. The Weighted Average Portfolio Life shall not apply to the Equities component of the Fund. The Fixed Income component shall have a weighted average portfolio life of no more than ten (10) years.

Return Objective: The Fund aims to exceed the return of a Blended Benchmark.

The Benchmark: The Fund aims to exceed the return of a Blended Benchmark, **70% PSEi Total Returns Index (PSEi TRI) and 30% Bloomberg Philippine Sovereign Bond Index AI.**

- Description of the Benchmark
  - The Philippine Stock Exchange Index (PSEi) measures the relative changes in the free float-adjusted market capitalization of the 30 largest and most active common stocks listed at the PSE. (Source: Philippine Stock Exchange, Inc.).
  - The PSEi’s bucket of the top thirty (30) common stocks are based on a fixed set of rules that allow it to represent the general movement of the Philippine stock market.
  - The **PSEi Total Returns Index (PSEi TRI)** tracks both the price performance and income from dividend payments of the underlying PSEi constituents by reinvesting cash dividends back to the index according to each constituent’s respective index weightings.
  - **The PSEi TRI is total returns in nature. However, it is not net of applicable taxes.**
  - The Bloomberg Philippine Sovereign Bond Index AI (BPHILR) is a rules-based market-value weighted index engineered to measure the fixed-rate local currency securities publicly issued by the Philippines, including retail securities. To be included in the index a security must have a minimum par amount of PHP 3 billion. (Source: Bloomberg)
  - The BPHILR tracks the performance of peso-denominated bonds issued by the Philippine government and/or government-guaranteed entities.
  - **The BPHILR is total returns in nature. However, it is not net of applicable taxes.**
  - **The benchmark is administered by an independent third party and is not controlled or operated by the Trustee.**
- Use of Benchmark
  - The Fund is designed for high-risk appetite investors looking for returns on their investments by generating returns through capital appreciation of their investment. The Fund will invest in Equities listed in the Philippine Stock Exchange as well as peso-denominated government and corporate issued bonds. A blended benchmark would give a comparable measure for both the blended portfolios.
  - **There is an immaterial misalignment between the Fund’s returns and the blended benchmark due to structural differences since the Fund is subject to taxes while the PSEi TRI and BPHILR are not net of applicable taxes.**
- Sources for more detailed information
  - Philippine Stock Exchange ([www.pse.com.ph](http://www.pse.com.ph))
  - Bloomberg. For additional information on the benchmark, investors may send an email via

<https://www.bsp.gov.ph>

indexhelp@bloomberg.net.

- o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

## **CLIENT SUITABILITY**

---

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is ideal for investors who:

- (a) have aggressive risk appetite; and
  - (b) are looking for capital growth with a long-term investment horizon of at least ten (10) years.
  - (c) are willing to accept higher risks involving volatility of returns and possible erosion of principal for potentially better long-term results
- 

## **KEY RISKS AND RISK MANAGEMENT**

---

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.

The Fund is exposed to the following risks:

- **Country/Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the Fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of equity investments such as Fixed-Income and REITs generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.

For the general and collective interest of the Fund's Participants, the Trustee is authorized to adopt an external or internal risk management and hedging strategy and a more definitive policy guideline based on generally accepted risk management principles, and duly approved by the Board of Directors of the Trustee.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

\*Weighted duration only applies for the fixed income portion of the Fund.

\*\*Weighted average portfolio life only applies for the fixed income portion of the Fund.

\*\*\*Volatility measures the degree to which the Fund fluctuates on a daily basis vis-à-vis its average return over a period of time.

\*\*\*\*Sharpe Ratio is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better. Risk Free Rate used is the Average Philippine 10Y Benchmark Rate.

\*\*\*\*\*Information Ratio measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

## OTHER DISCLOSURES

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement in East West Bank amounting to P0.87 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Bond yields jumped nearly 58 basis points on average after April consumer prices jumped 7.2% yoy. This exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher.

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

Local stocks inched 0.5% lower on worries over potential aggressive monetary tightening by the BSP. AC Energy, Aboitiz Equity Ventures and ICTSI led all index gainers, while DigiPlus, Jollibee and Converge ICT were the index laggards. We opened positions in ACEN Corp and Meralco and increased exposures to BDO, ICTSI, Jollibee and PLDT.

The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices. The Fund's bias remains skewed toward equities over bonds.

PROSPECTIVE INVESTMENT. The Fund's prospective investments, depending on availability and market development, may include but are not limited to, stocks in the Philippine Stock Exchange Index, Time Deposits, Government Securities and tradable fixed income securities issued by local financial institutions or private corporations.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST DOLLAR MONEY MARKET Fund** (the “Fund”) is a USD-denominated Money Market Fund that aims to provide its participants liquidity and stable income derived from diversified portfolio of bank deposits and fixed income instruments with remaining terms to maturity of a maximum of three (3) years and has a weighted average portfolio life of a maximum of one (1) year.

The Fund will be managed by EastWest Trust and Asset Management Group. It is ideal for investors with a moderate risk profile with a one-year investment time horizon.

Return Objective. The Fund aims to exceed the return of the **Blended Benchmark: 50% Average Philippine US Dollar Savings Deposit Rate (PPSDUS\$ Index), Adjusted and 50% Average 3 Month US Treasury Bill (CB3 Govt), Adjusted.**

- **THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
- **DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.**

- Description of the Benchmark
  - The Average Philippine US Dollar Savings Deposit Rate tracks the average of the interest rates that different Philippine banks offer for their US Dollar savings accounts.
  - The US Treasury bill (T-Bill) is a short-term U.S. government debt obligation backed by the Treasury Department with a maturity of one year or less.
  - **The blended benchmark is not total returns in nature. It is also not net of applicable taxes.**
- Key Characteristic of the Benchmark
  - The Average Philippine US Dollar Savings Deposit Rate tracks the average of the interest rates that different Philippine banks offer for their US Dollar savings accounts stated in per annum (p.a.) returns. **It is not total returns in nature. It is not net of applicable taxes.**
  - The Average 3 Month US Treasury Bill represents the return (stated p.a.) of an investor who is willing to tolerate a moderate amount of risk for slightly higher returns over regular dollar deposit rates within a short investment time horizon. **It is not total returns in nature. It is not net of applicable taxes.**
- Use of the Benchmark
  - The blended benchmark provides a standard for evaluating the Fund's performance by providing a comparable metric given the short-term nature of the portfolio for investors/participants to understand how the Fund is performing. The Fund's goal is to outperform the blended benchmark.
  - To measure performance under a year, the average p.a. return of the benchmark will be pro-rated to match the period being observed. The Average Philippine US Dollar Savings Deposit Rate benchmark portion is intended to be a comparable portion to the highly liquid nature of the Fund (cash or cash equivalent instruments). The Average 3 Month US Treasury Bill benchmark is intended to be a comparable measure to the returns of the Fund in its moderate risk investments (short-term fixed income securities).
  - **There is an immaterial misalignment between the Fund and the blended benchmark, as the latter is neither total return in nature nor net of taxes. This may result in minor discrepancies in the performance comparison metric.**
- Sources for more detailed information
  - Bangko Sentral ng Pilipinas ([bsp.gov.ph](http://bsp.gov.ph))
  - Philippine Depository & Trust Corp. (<https://www.pds.com.ph/>)
  - U.S. Department of the Treasury (<https://home.treasury.gov/>)
  - Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).

## **CLIENT SUITABILITY**

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have a moderate risk appetite
- Are looking for a portfolio which may provide higher income than traditional time deposits but requires short-term liquidity with a one-year investment time horizon.
- Are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better short-term results

## **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

lower than the NAVpu at the time of participation.

The Fund is exposed to the following risks:

- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the Fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by EastWest Bank-Trust.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

**OTHER DISCLOSURES**

**OUTLOOK AND STRATEGY.** Yields on US government securities with tenors below 1 year increased by an average of 3 basis points as higher fuel and energy prices during the first two months of US-Iran war helped pushed the Federal Reserve's preferred inflation measure further away from its target. The PCE price index in March and April were up 3.5% yoy and 3.8% yoy, respectively. The core PCE price index likewise accelerated to 3.2% and 3.3%, respectively.

Meanwhile, the US labor market remained strong as US nonfarm payrolls in March and April grew by 178,000 and 115,000 jobs, respectively. The March figure would still beat expectations even without the boost from the healthcare strike reversal. Both exceeded expectations in those months, which led market participants to price in an interest rate hike later this year.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments may include securities issued or guaranteed by the Philippine government, tradable securities issued by financial institutions or private corporations, marketable instruments and loans that are traded in an organized exchange, bank deposits, similar collective investment vehicles subject to existing BSP regulations, and such other investment outlets/categories the BSP allow.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST PERA PSEI TRACKER Fund** (the “Fund”) seeks to achieve investment returns that track the performance of the PSEi Total Returns Index (hereinafter referred to as “PSEi TRI”). The Fund will be passively

- ❖ THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).
- ❖ DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.
- ❖ ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT.
- ❖ AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.
- ❖ THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.
- ❖ THE UIT FUND IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUSTEE, ITS AFFILIATES OR SUBSIDIARIES.
- ❖ THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF’S DECLARATION OF TRUST, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest’s 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

managed by EastWest Trust and Asset Management Group (“Trustee”) and is ideal for investors with an aggressive risk appetite and a long-term investment horizon of at least ten (10) years.

Return Objective. The Fund aims to track the return of the PSEi Total Returns Index (**PSEi TRI**).

- **Description of the Benchmark**

- The Philippine Stock Exchange Index (the “PSEi”) measures the relative changes in the free float-adjusted market capitalization of the 30 largest and most active common stocks listed at the PSE. (Source: Philippine Stock Exchange, Inc.)
- The PSEi is composed of the top thirty (30) largest and most actively traded common stocks are based on a fixed set of rules that allow it to represent the general movement of the Philippine stock market. The benchmark is administered by an independent third party and is not controlled or operated by the Trustee.
- The **PSEi Total Returns Index (PSEi TRI)** tracks both the price performance and income from dividend payments of the underlying PSEi constituents by reinvesting cash dividends back to the index according to each constituent’s respective index weightings.
- **The PSEi TRI is total returns in nature. However, it is not net of applicable taxes.**

- **Relation of the Benchmark’s to the Fund’s objectives/investment strategies**

- The Fund is designed for high-risk appetite investors seeking long-term capital appreciation. As a passively managed equity index fund, the Fund is designed to mirror the composition and performance of the PSEi TRI as closely as possible.
- The Fund aims to deliver returns that closely match/track the benchmark’s performance, net of fees and expenses. The Trustee shall monitor and manage tracking error to ensure alignment with the benchmark.
- **The benchmark reflects the price performance and income from dividend payments of the underlying index constituents. It is not net of applicable taxes. Minor misalignments between the Fund and the benchmark may occur due to differences in taxes.**

- **Sources for more detailed information**

- Philippine Stock Exchange (<https://www.pse.com.ph/>)
- Bloomberg. For additional information on the benchmark, investors may send an email via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).
- Additional information on the benchmark can be made available to Participants or their PERA Administrators upon request.

## **CLIENT SUITABILITY**

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is ideal for investors who:

- (a) have aggressive risk appetite; and
- (b) are looking for capital growth with a long-term investment horizon of at least ten (10) years.

## **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

Investments in the Fund are valued based on the Net Asset Value per unit (NAVpU) Fund using a marked-to-market methodology, which reflects current market conditions and therefore may fluctuate daily. Investments in a UITF do not provide guaranteed returns. The principal and earnings from investment in the Fund may be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest’s 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

The Fund, which shall be substantively invested in a diversified portfolio of listed Philippine shares of stock, is exposed to the following risks:

- **Business Risk.** Stockholders as fractional owners of corporations share in the fortunes of the business. The rise and fall of stock prices often reflect the market's perception of the prospects of corporations and their management to reward stockholders for taking risks unique to each business. Business risk can be reduced through diversification.
- **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
- **Market Risk.** Market risk is the risk that the value of the FUND investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
- **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
- **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.

These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST PERA PESO LONG TERM BOND FUND** (the "Fund") is a peso-denominated fixed income fund that intends to provide its participants the potential to earn higher long-term returns by investing in a diversified portfolio of deposits and tradable debt securities issued by the Philippine government, its agencies and private corporations. The Fund has a weighted average portfolio life of a maximum of ten (10) years. Outside of the context of a portfolio, it is suitable for investors seeking long term capital growth over an investment horizon of at least ten (10) years through a managed portfolio of fixed-income instruments. The Fund aims to outperform its benchmark.

- **THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
- **DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.**

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

Return Objective: The Fund aims to outperform the **Bloomberg Philippine Sovereign Bond Index AI (BPHILR)**.

- Description of the Benchmark and Key Characteristic of the Benchmark
  - o The Bloomberg Philippine Sovereign Bond Index AI (BPHILR) is a rules-based market value weighted index engineered to measure the fixed-rate local currency securities publicly issued by the Philippines, including retail securities. To be included in the index a security must have a minimum par amount of PHP3 billion. (Source: Bloomberg).
  - o The BPHILR tracks the performance of peso-denominated bonds issued by the Philippine government, and/or government-guaranteed entities.
  
- Use of the Benchmark
  - o The fund is designed for Aggressive Risk appetite investors looking for higher returns on their investment through capital appreciation with a long-term investment time horizon. The fund will invest in peso-denominated long-term securities. The benchmark would give be a comparable metric given the fixed income assets of the portfolio.
  - o **There are immaterial misalignments between the benchmark and the Fund, as the benchmark is not net of taxes. In contrast, the Fund's secondary market transactions may be adjusted for applicable taxes which may be deducted from the Fund's Net Asset Value.**
  
- Sources for further benchmark information:
  - o PDS Group (<https://www.pds.com.ph/>)
  - o Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net).
  - o Additional information on the benchmark and/or its administrator can be made available to the investors upon request.

**Formatted:** Justified, Space After: 0 pt, Add space between paragraphs of the same style, Line spacing: single, Bulleted + Level: 2 + Aligned at: 0.75" + Indent at: 1", No widow/orphan control, Don't adjust space between Latin and Asian text, Don't adjust space between Asian text and numbers

#### **CLIENT SUITABILITY**

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have an aggressive risk appetite
- Are looking for long-term capital growth over an investment time horizon of at least ten (10) years through a managed portfolio of fixed-income instruments.
- Are willing to accept higher risks involving volatility of return and possible erosion of principal for potentially better long-term results

#### **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- Prospective investors need to consider certain risks prior to participation in the Fund. The market value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investments in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.
- Participation in this peso-denominated long-term fixed income fund carry the following risks:
  - o **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - o **Reinvestment Rate Risk.** This is the risk that interest earnings, or the proceeds from the sale or maturity of a bond investment, is reinvested at a rate lower than its original investment, thus reducing the investor's periodic income.

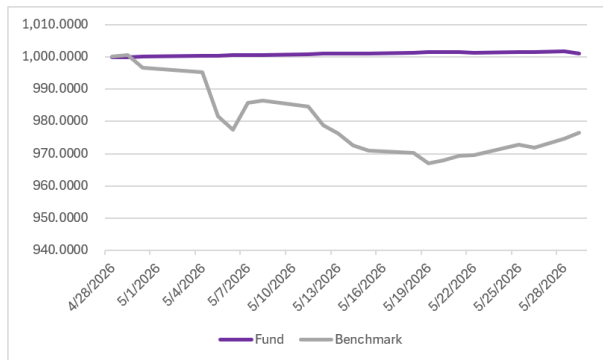

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Credit Risk.** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner. Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
  - **Market Risk.** Market Risk is the possibility for an investor to experience losses due to changes in market prices of securities. It is the risk of a UITF to lose value due to a decline in the prices of securities, which may sometimes happen rapidly or unexpectedly. There are market factors affecting all securities that cannot be controlled by diversification, such as the sentiment of investors as a whole which is unpredictable. Market downturns can come swiftly and last a long time.
  - **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. Liquidity risk is minimized by investing in marketable securities.
  - **Inflation Risk.** Inflation is the general upward price movement of goods or services in an economy, resulting to a reduction in the purchasing power of money. Inflation affects all investments. An investor would want the value of his investment to keep pace or exceed the rate by which the prices of goods and services go up. Historically, inflation risk is greatest for short-term guaranteed securities like time deposits and treasury bills.
  - **Country Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs, tax increases, and other changes in regulations.
  - **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by the TRUSTEE.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
  - The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVpU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVpU will fluctuate in relation to changes in interest rates.

**FUND PERFORMANCE AND STATISTICS AS OF 29 MAY 2026**

\*\*\*\*\* The benchmark is not net of taxes. This may cause a discrepancy between the benchmark and the fund.

#### **OTHER DISCLOSURES**

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit with East West Bank amounting to P0.055 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on bonds with tenors of five years and longer jumped nearly 57 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued or guaranteed by corporations and traded in an organized exchange, securities issued or guaranteed by any government of a foreign country or any political subdivision of a foreign country, securities issued or guaranteed by any supranational entity, loans traded in an organized exchanged, savings and time deposits in any bank or financial institution, and other tradable investment outlets categories as the BSP may allow.

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

- The BPHILMM Index is a rules-based market-value weighted index engineered to measure the fixed-rate and zero-coupon local currency securities publicly issued by the Philippines, including retail securities.
- To be included in the index, a security must have a minimum par amount of PHP 3 billion.
- Key Characteristic of the Benchmark
  - The BPHILMM tracks the performance of peso-denominated securities issued by the Philippine government with tenors of a maximum of one year, comprising of fixed rate and zero-coupon securities.
  - **The benchmark is total return in nature. however. it is not net of applicable taxes.**
- Use of the Benchmark
  - The benchmark serves as a standard for evaluating the Fund's performance, offering a comparable metric that reflects the behavior of similar fixed income assets held in the portfolio. The Fund aims to outperform this benchmark.
  - **The benchmark is total returns in nature. There are immaterial misalignments between the benchmark and the Fund, as the benchmark is not net of taxes. It only tracks the price movements and accrued interest of its underlying securities. In contrast, applicable taxes on secondary market transactions and other fees deducted from the Fund affect its Net Asset Value.**
- Sources for more detailed information:
  - Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
  - Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

## **CLIENT SUITABILITY**

Client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have a conservative risk appetite
- Are looking for a portfolio which may provide higher income than traditional time deposits but requires short-term liquidity with a one-year investment time horizon.
- Are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better short-term results

## **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- The value of the investment is based on the Net Asset Value per unit (NAVpu) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpu at the time of redemption is lower than the NAVpu at the time of participation.
- The Fund is exposed to the following risks:
  - **Country/ Political Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs and tax increases.
  - **Market Risk.** Market risk is the risk that the value of the fund investment will be negatively affected by the fluctuations in the price level of its underlying instruments.
  - **Inflation Risk.** Affecting all investments, inflation reduces the purchasing power of money.

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. This is minimized by investing in marketable securities.
  - **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
  - **Reinvestment Rate Risk.** This is the risk of reinvesting interest earnings at a rate lower than the original investment.
  - **Credit Risk.** Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
  - **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by the Trustee.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
  - The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates.

## OTHER DISCLOSURES

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement in East West Bank amounting to P0.12 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on government securities with tenors of one year and shorter jumped nearly 54 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments may include securities issued or guaranteed by the Philippine government, tradable securities issued by financial institutions or private corporations, marketable instruments and loans that are traded in an organized exchange, bank deposits, similar collective investment vehicles subject to existing BSP regulations, and such other investment outlets/categories the BSP allow.

**INVESTMENT OBJECTIVE AND STRATEGY**

The **EASTWEST PERA PESO INTERMEDIATE TERM BOND** Fund (the "Fund") is a peso denominated fixed income fund that intends to provide its participants with the potential to earn intermediate-term returns higher than traditional bank deposits. It is invested in government securities, corporate bonds and notes and term deposits. The Fund maintains a weighted average portfolio life of more than one (1) year up to three (3) years. Outside of the context of a portfolio, it is

- **THE UIT FUND IS A TRUST PRODUCT, NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED BY NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).**
- **DUE TO THE NATURE OF THE INVESTMENTS, THE RETURNS/YIELDS CANNOT BE GUARANTEED AND HISTORICAL PERFORMANCE, WHEN PRESENTED IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.**
- **ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT.**
- **AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.**
- **THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.**
- **THE UIT FUND IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUSTEE, ITS AFFILIATES OR SUBSIDIARIES.**
- **THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF'S DECLARATION OF TRUST, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/ PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.**

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

suitable for investors seeking capital growth over an investment time horizon of at least three (3) years through a managed portfolio of fixed-income instruments.

Return objective: The Fund's objective is to exceed the benchmark.

The Fund's benchmark is the **Bloomberg Philippine Sovereign Bond Index 1-3 Year (BPHIL13)**.

#### Description of the Benchmark

- The Bloomberg Philippine Sovereign Bond Index 1 to 3 Year (BPHIL13) is a rules-based market-value weighted index engineered to measure the fixed-rate local currency securities publicly issued by the Philippines, including retail securities. To be included in the index a security must have a minimum par amount of PHP 3 billion. (Source: Bloomberg).

#### Key Characteristic of the Benchmark

- The BPHIL13 tracks the performance of peso-denominated bonds issued by the Philippine government. It comprises of peso-denominated fixed rate securities with tenors that are one (1) to three (3) years. The BPHIL13 is not net of applicable taxes.
- **The benchmark is total returns in nature. However, it is not net of applicable taxes.**

#### Use of the Benchmark

- The Fund is designed for Moderate Risk appetite investors looking for Moderate returns on their investment through capital appreciation. The Fund will invest in peso-denominated intermediate-term securities. The benchmark would give be a comparable metric given the fixed income assets of the portfolio.
- **There are immaterial misalignments between the benchmark and the Fund since the benchmark is not net of taxes. In contrast, the Fund's Net Asset Value (NAV) is affected by applicable taxes on secondary market transactions and other fees charged to the Fund.**

Sources for more detailed information:

- PDS (<https://www.pds.com.ph/>)
- Bloomberg. For additional information on the benchmark, investors may send an email to Bloomberg via [indexhelp@bloomberg.net](mailto:indexhelp@bloomberg.net)
- Additional information on the benchmark and/or its administrator can be made available to the investor upon request.

## **CLIENT SUITABILITY**

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The Fund is suitable for investors who:

- Have a moderate risk appetite
- Are seeking capital growth over an investment time horizon of at least three (3) years
- Are willing to accept moderate risks involving volatility of return and possible erosion of principal for potentially better intermediate-term results

## **KEY RISKS AND RISK MANAGEMENT**

**You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.**

- Prospective investors need to consider certain risks prior to participation in the Fund. The market value of the investment is based on the Net Asset Value per unit (NAVpU) of the Fund which uses a marked-to-market valuation and therefore may fluctuate daily. Investment in a UITF does not provide guaranteed returns. Principal and earnings from investment in the Fund can be lost in whole or in part when the NAVpU at the time of redemption is lower than the NAVpU at the time of participation.
- Participation in this peso-denominated intermediate-term fixed income fund carry the following risks:

---

EastWest Bank – Trust & Asset Management Group, 3F EastWest Corporate Center, 5<sup>th</sup> Ave. cor. 23<sup>rd</sup> St., Bonifacio Global City Taguig. *For inquiries and feedback, you may call EastWest's 24-Hour Customer Service at 8888-1700 or email [trustmarketing@eastwestbanker.com](mailto:trustmarketing@eastwestbanker.com)*

EastWest Bank is regulated by the Bangko Sentral ng Pilipinas  
<https://www.bsp.gov.ph>

- **Interest Rate Risk.** The value of fixed-income investments such as notes and bonds generally fall when interest rates rise. The potential for loss is typically greater for securities that have a longer term to maturity, have a longer duration or have a lower yield or coupon rate.
- **Reinvestment Rate Risk.** This is the risk that interest earnings, or the proceeds from the sale or maturity of a bond investment, is reinvested at a rate lower than its original investment, thus reducing the investor's periodic income.
- **Credit Risk.** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner. Bonds represent a loan made to the issuer of the bond. The credit worthiness of the bond issuer is the issuer's ability to pay interest and principal on time, which can change during the life of the bond. Issuers with a higher risk of defaulting pay the highest yields.
- **Market Risk.** Market Risk is the possibility for an investor to experience losses due to changes in market prices of securities. It is the risk of a UITF to lose value due to a decline in the prices of securities, which may sometimes happen rapidly or unexpectedly. There are market factors affecting all securities that cannot be controlled by diversification, such as the sentiment of investors as a whole which is unpredictable. Market downturns can come swiftly and last a long time.
- **Liquidity Risk.** Liquidity is a measure of how easy it is for a security to be converted into cash. A liquid security is widely held and is frequently traded by many buyers and sellers every day. Liquidity risk is minimized by investing in marketable securities.
- **Inflation Risk.** Inflation is the general upward price movement of goods or services in an economy, resulting to a reduction in the purchasing power of money. Inflation affects all investments. An investor would want the value of his investment to keep pace or exceed the rate by which the prices of goods and services go up. Historically, inflation risk is greatest for short-term guaranteed securities like time deposits and treasury bills.
- **Country Risk.** Securities can be affected by the political, economic and social structures within the countries of their issuers, such as internal and external conflicts, currency devaluations, foreign ownership limitations, trading costs, tax increases, and other changes in regulations."
- **Other Risks.** Participation in the UITF may be further exposed to the risk of any actual or potential conflicts of interest relative to in-house transactions by the Trustee.
- These are the principal risk factors which may affect the performance of the Fund. If you would like more information before you invest, please consult the most recent Declaration of Trust (DOT). The rights and duties of the investor are in the DOT.
- The Fund employs a risk management policy based on duration. Duration measures the sensitivity of NAVPU to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more the NAVPU will fluctuate in relation to changes in interest rates.

## OTHER DISCLOSURES

**RELATED PARTY TRANSACTIONS.** The Fund has a time deposit placement in East West Bank amounting to P0.02 million. The investment outlets were approved by the Board of Directors. All related party transactions are conducted on a best execution and arm's length basis.

**OUTLOOK AND STRATEGY.** Yields on bonds with tenors of five years and shorter jumped nearly 56 basis points on average after the April inflation print (7.2% yoy) exceeded all estimates, including our forecast of 7.0%. BSP Governor Eli Remolona, Jr. indicated policymakers were open to an off-cycle rate hike before its policy meeting on June 18 and acknowledged the risk that policymakers would be behind the curve if the oil supply shock persists. We cut the Fund's duration to underweight relative to benchmark as inflationary pressures push consumer prices higher. The BSP expects May inflation to range between 7.1% and 7.9% yoy, but we expect a slight deceleration to 7.0% as lower fuel and electricity prices partially offset higher food prices.

**PROSPECTIVE INVESTMENTS.** The Fund's prospective investments include securities issued by or guaranteed by the Philippine government, marketable fixed income securities issued by corporations and traded in an organized exchange, securities issued by or guaranteed by any government of a foreign country or any political subdivision of a foreign country, securities issued by any supranational entity, loans traded in an organized exchange, savings and time deposits in any bank or financial institution, and other tradable investment outlets categories as the BSP may allow.
